

The right lighting can enhance any space. It can support accessibility, evoke different moods and make an area feel safer. We are proposing a variety of lighting for use throughout the Scores.

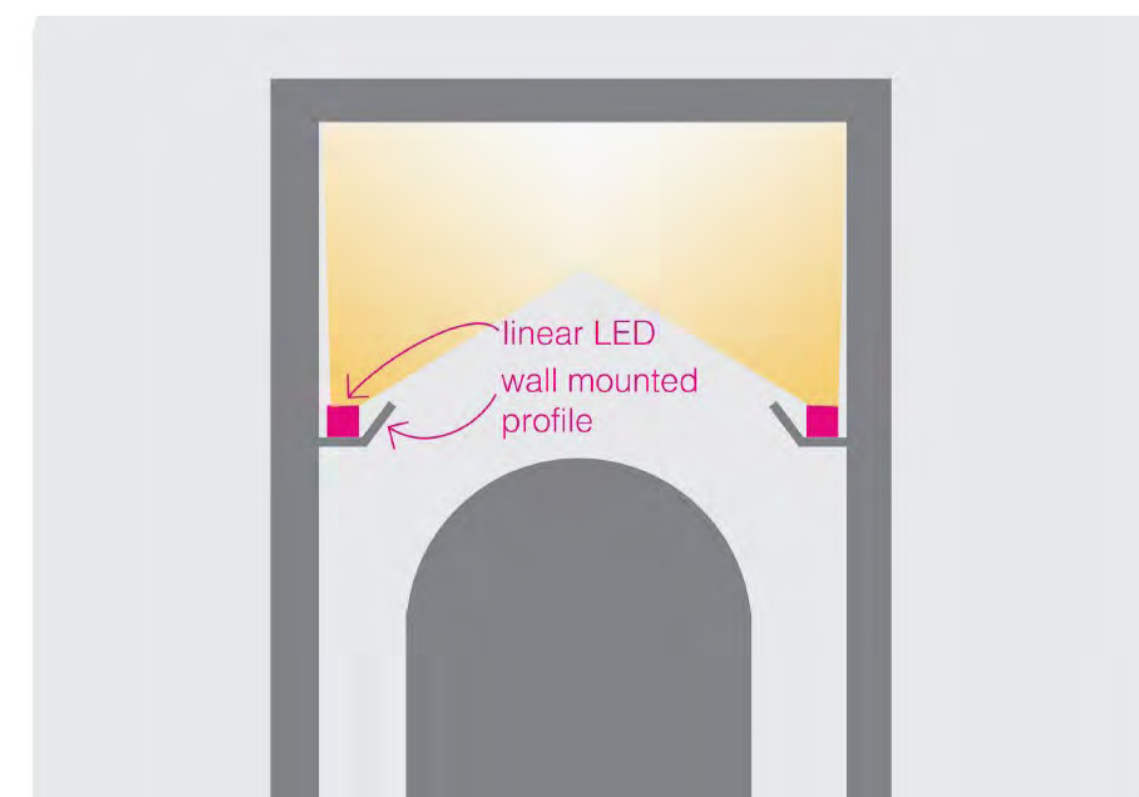

Lighting Precedents

Typical Lighting Proposal: Maltsters Score

The following points describe the lighting strategy applied to Maltsters Score, starting from the High Street end. Note the proposals present an approach which is replicated throughout the Scores.

- Highlight the new ceiling with the use of linear LED to uplight the passageway, make bright and inviting entrance.
- Light the proposed artworks to generate curiosity and deliver pools of light through the journey.
- Relamp all existing heritage light columns with a neutral colour temperature.
- Add uplights to accent existing themed artwork.
- Add uplights to interesting walls to emphasize importance and add texture and rhythm to the journey.
